

# Google Classroom is still a **CLASSROOM**.

Use **appropriate language** and be respectful.

We know you miss your friends, but **comments are NOT for personal conversations.**

## Remember to **THINK**:

- T** = Is it **True**?
- H** = Is it **Helpful**?
- I** = Does it follow **Instructions**?
- N** = Is it **Necessary**?
- K** = Is it **Kind**?

Not sure how to do something? **Ask Questions! We are still here to help you.**

**Make a good impression.**

Use complete sentences and avoid slang.

If there is a comment or post that is not school-appropriate, we will have to delete it.

**HAVE FUN,  
but remember  
a classroom  
is for  
LEARNING!**

**Do NOT share  
your personal  
information  
with others!**

## Google Classroom Rules, Expectations and Etiquette.

**Positive Posts:** When communicating with your teachers and peers online, posts should always be positive and appropriate.

- Avoid using negative language or inappropriate words.
- Praising one another's creativity, thoughts, and work is GREAT!

### **Relevant posts and questions:**

- All posts to our classroom should directly relate to the task or topic.
- Don't post 'just to post'.

### **Proofreading:**

- Double check your writing for punctuation, spelling and grammar errors before submitting.
- Use the same size, font and colour throughout your writing.
- Avoid using text lingo (lol, jk), slang and any other non-academic writing.

### **Patience is key:**

- We are all learning how to use Google Classrooms together. Some will move faster than others and that's okay!
- Be patient with your peers (and teacher!).
- If you feel unsure, ask questions to help you understand.

### **Additional Information:**

- Check each class daily, depending on your family's schedule
- One assignment from each area will be marked weekly.
